Rates, applications and certain terms of service are also available on the Cooperative's website.

Service quality standards are established by the state commission and the Cooperative consistently meets or exceeds the standards and provides reports to the state commission, in accordance with the state commission's rules.

The protection of customers' privacy and information is of utmost importance and the Cooperative has a policy and established operating procedures that comply with the FCC's Customer Proprietary Network Information (CPNI) rules (47 C.F.R. §§64.2001-64.2011). LINE 610 - ABILITY TO FUNCTION IN EMERGENCY SITUATIONS

Cap Rock Telephone Cooperative (the Cooperative) is able to function in emergency situations. The Cooperative has a reasonable amount of back-up power to ensure functionality without an external power source. Standby power generators are available at the central office, remote switch sites, and repeater sites to ensure functionality without an external power source until power is restored. The network is capable of managing traffic spikes resulting from emergency situations.

The Cooperative is able to reroute traffic around damaged facilities. Although the Cooperative's ability to reroute traffic around damaged facilities is not absolute and may be limited in certain circumstances, there is a restoration plan in place for expeditious recovery of service, including splicing of damaged facilities when warranted.

LINE 1210 – TERMS & CONDITIONS OF VOICE TELEPHONY LIFELINE PLANS
